

**A LIGHT WITH  
AN EDGE.**

**INTRODUCING THE 777 LUMINA, WITH LED.**

This full-size Outdoor knife slices through darkness with a programmed 5mm LED that's integrated right into the handle. The Lumina's burn time is excellent, and stands as yet another beacon of our evolving collaboration with mountaineer Peter Whittaker. Buck/Whittaker knives lead the industry with function-driven products engineered specifically for use in the outdoors. With the Lumina, the future's looking even brighter.
